

Jorge Lopez

Houston - US Citizen - 346-715-9528 - jlllope27@cougarnet.uh.edu - www.linkedin.com/in/jorgelopez04

EDUCATION

University of Houston, Cullen College of Engineering

Expected Graduation Date: December 2028

Bachelor of Science in Mechanical Engineering

GPA: 3.76

SKILLS & CREDENTIALS

Certifications: AutoDesk Inventor, Microsoft Suite (Excel, Word, Powerpoint, Outlook, Teams), OSHA

Technical Skills: Welding, Soldering, Mechanical Assembly, Fabrication, 3D Printing, Machining

Software: Proficient in AutoCAD, Inventor, Solidworks, COMSOL, MATLAB, Oracle, Python, and Microsoft Suite

Clearances: Active Public Trust (SF-85) Clearance, NASA

WORK EXPERIENCE

Leidos - NASA Cargo Mission Contract

Webster, TX

Project Engineering Intern

December 2025- Present

- Led facility transformation for flight-ready space hardware from planning to execution, developing AutoCAD layouts, presenting cost-benefit analyses, and securing executive approval and funding
- Increased storage capacity by 34% through vacuum sealing and reduced hardware footprint by 40% through modular shelving, enhancing storage efficiency and organization
- Redesigned operational flow by establishing structured zones (incoming, inventory, outgoing) and applying Lean principles to streamline processes and improve throughput
- Developed and implemented a barcode-based inventory system, improving audit speed by 2.4x and accuracy

Williams Companies

Houston, TX

Engineering Intern

January 2024- August 2024

- Designed and implemented a CAD cross-reference tool for 3,000+ parts, enabling engineers to locate components faster and supporting project completion timelines
- Supported engineers in analyzing pipeline operations and gas flow systems, contributing to project discussions and developed understanding of system operations
- Leveraged supply chain knowledge to support coordination between engineering and operations teams

Supply Chain Intern

August 2023- December 2023

- Processed and resolved over 3,500 invoices in Oracle, applying problem-solving skills to ensure accuracy and timely completion
- Coordinated with 100+ vendors and internal stakeholders to secure approvals, supporting payment execution on projects valued at a total of \$50M
- Created an Excel-based automated system to detect duplicate invoices and errors, streamlining weekly review of 100+ invoices and improving approval accuracy

PROJECTS

SwiftSort System

January 2025- May 2025

- Engineered a fully mechanical sorting system using SolidWorks, translating design specifications into a precise 3D assembly design
- Programmed and integrated Arduino controlled motors and electronics, driving a threaded rod mechanism that precisely moved 20 ping pong balls and disks back and forth for automated sorting

LEADERSHIP AND MEMBERSHIP

Society of Asian Scientists & Engineers

Houston, TX

Fundraising Chair

May 2025- Present

- Planned and hosted 8 fundraising events (tournaments, socials, profit shares), raising over \$2,100+ in funds to directly support SASE member activities and achieving the most successful fundraising year to date
- Partnered with 5 local businesses to coordinate sponsorships and profit shares, achieving a 5x increase in fundraising revenue compared to the previous year
- Implemented new fundraising initiatives to increase member engagement across SASE families

Mentor

December 2024- August 2025

- Provided academic and career support to 4 mentees, focusing on personal development and professional growth
- Coordinated and led 4 family socials with fellow mentors, strengthening the SASE family system and fostering community among 30+ members
